

# Before and After

Write ten two-digit numbers. Put a box around your numbers.

Then write the number that comes before and after each two-digit number.

Example: 66 67 68

# Four More

Write ten two-digit numbers. Put a box around your numbers.

Then write the number that is four more than each two-digit number.

Example: 45 49

# Playing Card Fun!

Choose three playing cards. Write the three numbers at the top of your page and put a box around them.

How many different three-digit numbers can you make?

Good luck! 😊

# Subtraction Problems

Copy and solve these subtraction problems on your paper. Don't forget to line up the numbers!

$457 - 287$

$371 - 109$

$990 - 208$

$786 - 367$

# Skip Counting

Practice skip counting by 10's.

Start with number 100 and count up to 500 on your paper. Write your numbers neatly!

# Addition Practice

Copy and solve these addition problems on your paper. Don't forget to line up the numbers!

$457 + 387$

$378 + 199$

$990 + 208$

$786 + 367$

## Greater Than Number Sentences

Write 4 greater than number sentences.

Underneath each number sentence, write it once more in  
**WORD FORM!**

Example:  $14 > 10$

Fourteen is greater than ten.

## Less Than Number Sentences

Write 4 less than number sentences.

Underneath each number sentence, write it once more  
in **WORD FORM!**

Example:  $12 < 16$

Twelve is less than sixteen.

## Number Word Sentences

Write four sentences using at  
least one number word in each sentence.

Please underline the number words.

Example: Two days ago I ate four pieces of pie and  
three cookies.
